Saving time, money and effort

Indoor Printing

طباعة الرقمية إن دور

Neat and clean printing with shining colors make the products eyecatching.

Indoor Printing is based on mostly small or even tiny size printing, which is very difficult to give a perfect result, but we have a fine record in indoor printing as we use well known and perfect machines for indoor printing. Mostly sticker designs have multiple color combinations with different textures. We are expert in such kind of printing as we use the machines such as, Mimaki, Chromo Jet and HP. Good work of any indoor machine depends on inks and material to be printed on. So we use best quality inks as well as best quality printing materials.

بطائق و الشارات I.D cards & badges

A solution for every identification need

Identification badges, proximity cards, smart cards and more. Customize with your own printer or our Premium Badging Service. Security features to discourage counterfeiting and fraud.

Cards and badges are necessary for all business running companies. We provide finest quality in making of cards and badges. We have all kinds of cards and badges like, engraved, epox, plastic etc. We provide special discounts for schools, collage and universities.

Flex Signs

لوحات فلكس

FlexPost Flexible Sign Posts and Flexible Bollards will save you time and money in reduced repairs, replacements and maintenance costs for yours .

Outdoor Printing

طباعة الرقمية أوت دور

Big Print makes a Big Impression. It's easy to see, literally!

In Digital printing we have been working for almost 20 years, we are in the top list of perfect digital printing. The machines we are using have the accurate result as the designs are colored. There is no other substitute of flex printing of DGI which we have in perfect form.

We follow our client demands and take care of them in a long term. As the material we use is un-complain able, durable and long lasting. For the clients we have arranged a designing department, in which the designs are made according to the clients demand.

Indoor Signages

لوحات إرشادية

Indoor Signage is the design or use of signs and symbols to communicate a message to a specific group usually for the purpose of Marketing or a kind of advocacy.

Embroidery

تطريز

Embroidery is available with a wide variety of thread or yarn color. Machine embroidery is an embroidery process whereby a sewing machine or embroidery machine is used to create patterns on textiles

Any sport or event is made even more special with customized embroidered shirts—t-shirts, polo shirts, and more are all customizable, created by you right in our design lab. Polo shirts are a great way to advertise your business, and it's easy to design in the lab to personalize shirts with names, numbers, logos, and art. We have the perfect combination of Embroidery machines, a complete package of Embroidery on caps, shirts, T-shirts and different cloth materials. We provide special discounts for schools, collage and universities for their uniforms embroidery.

Vehicle Branding إستيكارات على السيارة

Vehicle branding is our skilled passion! Whether you need to brand an entire fleet, or a single vehicle, no job is too big or too small for us.

Billboards

لوحات

Billboard advertising has been around for decades, and it's still an effective way to promote your business. Today, however, you have to be extremely creative in your approach to capture the attention of motorists, pedestrians or commuters.

Heat Press & Sublimation

طباعة حراري

Heatpress

A heat press is a machine engineered to imprint a design or graphic on a substrate, such as a T-Shirt, with the application of heat and pressure for a preset period of time

Sublimation

A dye-sublimation printer is a computer printer which employs a printing process that uses heat to transfer dye onto materials such as a plastic , card, paper or fabric

Epoxy

Epoxy is an actual thermosetting resin that is applied as a coating. It is formed when you mix one part epoxide resin with one part polyamine hardener. The hardener acts as a catalyst and is what gives epoxy its strength.

Engraving

Engraving , in a printing context, is a method of creating raised areas of print or images on paper, such as a business card or letterhead. An impression is created on a metal plate, which is then filled with opaque ink. When paper is pressed into the plate, it creates raised and colored areas.

Cards & Badges

In cards there are several kinds of cards, such as PVC cards, Business Cards, Aluminum Cards etc. Badges are used as instant identification, which are made in different style and kinds.

Advertising Materials

مستلزمات الدعاية والإعلان

لدينا أجود المواد الإعلانية الجودة، ونحن دائماً تفضل أفضل ودائم المواد التي تستمر لفترة أطول
we have the finest quality advertising material, we always prefer best and durable materials which lasts longer
